This being the first meeting after the election of City Officials., the main order of business was to install the newly elected Officers. Mayor Bennett was re-elected as Mayor, his opponent being John Bible, who recieved twenty-three (23) votes, and Mayor Bennett recieved one hundred-forty (140). Leonard Peoples, who was un-opposed recieved a very good complimentary vote of one hundred-thirty nine. Much interest was shown in the election.

Alderman Peoples said that he had been approached about two or three of the lights which had been installed as street lights by private individuals, and was asked if the City could and would take these lights over. Alderman Peoples was asked by Mayor Bennett to look into this matter and see if it would be to the City's advantage to do this. It was thought at this time that it would be proper to do this.

The proposed Sanitary Land Fill, backed by TVA, is still in the process of being brought to a reality and some definite information should be recieved in the near future.

The Board of Mayor and Aldermen of the Town of Kimball, Tennessee, held its regular meeting August 26, 1971. All members were present.

The meeting was called to order and minutes were read.

A discussion concerning the new Business Tax Act was held by the Board and it was the opinion of all that the Town of Kimball should adopt this Business Tax Act as it effected only the businesses. This would provide additional revenue for the Town of Kimball.

Mayor Bennett read a letter from the Tennessee Planning Commission concerning the signs in the State of Tennessee. They stated that Tennessee would , in all probability, be a Hold out. They suggested that we adopt an Ordinance regulating the type and sizes of signs within the City Limits, and that this is what other towns are doing. It was agreed by all members that we do this and when we saw the necessity to enforce this Ordinance we would do so. Mayor Bennett stated that he continues to receive complaints about this situation.

The possibility of fixing the Kimball Lane Road is not very good. This has been one of the improvements that the commission had hoped to make, but the cooperation of all the property owners is needed. Some are willing to give right-of-way while others are not. Alderman Peoples reported that he had been approached on this just recently and he assured them that we were more than willing to re-build the road when all the people were willing to give necessary right-of-way.
